The online magazines **Zerspanungstechnik.de** and **Fertigungstechnik.de**

Besides to **Zerspanungstechnik.de**, **Fertigungstechnik.de** is our second online magazine. With **Dieonlinemagazine.de** we created an umbrella website which functions as an information platform.

In 2002 the online magazine **Zerspanungstechnik.de** was established. Since then we report about current topics in the field of cutting techniques. Furthermore, our subscribers receive all news in a weekly newsletter. According to Google Analytics, as of today, we register around 50,000 page views per month in 2020.

In September 2020, we released our new online magazine **Fertigungstechnik.de**. First time customers receive a discount of **50 %** on all bookings on **Fertigungstechnik.de until end of 2020**. You will find our current rates on the following pages.
